Agenda

1. KEG updates
2. A year in review and opportunities moving forward
3. Team discussion

•

KEG Updates

- KEG launch - 2020
- Dr.Piyush Mathur and David Carpenter: Co-chairs
- SCCM AV for KEG approved
- Pandemic,ofcourse!
- 110 members

A year in review

- First meeting during 2020 Annual Congress - 40+ attendees
- Pandemic, of course!

A year in review

Critical Care Documentation and Billing Update: COVID-19 Pandemic

Piyush Mathur, MD, FCCM; David L. Carpenter, MAPS, PA-C, CPC, FCCM; and David Jury, MD, MS, on behalf of SCCM's Documentation and Billing Knowledge Education Group.

Introduction

The COVID-19 pandemic has presented a unique set of challenges. These challenges have been tempered to some extent by provisions made by the American Medical Association and Centers for Medicare and Medicaid Services (CMS) to assist with the billing and documentation burden. Their goals are to create temporary hospitals, facilitate out-of-state hiring of providers, increase access to telemedicine, increase availability of testing, and minimize paperwork. We discuss some of the key points about appropriateness of documentation and billing based on guidance provided by these organizations.
