

## LETTER OF COMMITMENT

Reddy Singasani  
Reddy.Singasani@uhhospitals.org  
Cell 216 327 2616

I am Board certified in Critical Care Medicine, Nephrology, and Internal Medicine. I completed Fellowship at Henry Ford Hospital, Detroit, which has a robust Critical Care program with 160 beds ICU (the second largest ICU in the USA). I am proficient in all ICU procedures. I have experience working in the Medical ICU, Surgical ICU, Cardiac ICU, Cardiothoracic ICU, and Neuro ICU. I am spending significant bedside time working in Critical Care. In addition, I gained expertise in Tele ICU, with active Medical Licenses in 27 USA states and credentialed in close to 100 hospitals in the USA, working with 10 EMRs and exposure to multiple hospital cultures. I have significant experience treating patients from Tertiary care ICUs managing ECMO/ Transplant Patients/ End-Stage Heart Failure Patients to community-based small ICUs. I established a company in India, Singasani Global Health Corporate, that provides tele nephrology services to many states across India, working with the Government of India. I believe I am the only triple board-certified physician in the nation, with board certification in nephrology, critical care, and internal medicine, who possess complementary expertise in building customized telemedicine/ Tele-ICU systems and training telemedicine staff for new ventures. I currently work for University Hospitals/Case Western Reserve University, Cleveland, OH.

Apart from being a presenter, reviewer of numerous National Organizations, and Chair of multiple committees, I have been a member of SCCM for almost ten years, presented numerous posters and oral presentations, and peer-reviewed innumerable abstracts for SCCM. My critical thinking, patient-centric nature, leadership, and eagerness to please have afforded me excellent communication skills. As an extroverted and personable communicator, my focus on building strong professional relationships has been a valuable asset throughout my career. If elected to the leadership team, I will maximize the engagement of critical care professionals in SCCM and improve patient care, research, and education of SCCM members.

Please review my CV for a complete collection of my work history and accomplishments.

Sincerely,  
Reddy Singasani
